Sorrow entered the home of Mr. and Mrs. Hugh Court this morning (Friday) when their 16 month old son, Gregory Ray, was taken from them in a tragic drowning accident. The little fellow was "helping" his dad with the chores and when Mr. Court went into the house to tend the fires he left young Gregory sitting on the sandpile. When Hugh came back outside he missed the boy and immediately ran to the well where he found the lad. After trying artificial respiration he rushed the boy into the local hospital but Gregory was pronounced dead on arrival.

## A Link With The Past

If you ask the telephone operator for number 20 now she will connect you with the Calgary Power office, but about thirty years ago the man on the other end of the wire would have been one of the Mehew Brothers—Jack or Charlie. This was brought to light recently when Frank Hall found an old pocket knife on a ledge in one of the buildings at the C.P.R. station. It was just an ordinary knife to him until he opened it and found imprinted on the blade the words "Mehew Brothers, Phone 20, General Hardware, Raymond, Alberta." He took the knife down and presented it to Jack who agreed with Mr. Hall's theory that someone had stowed it many years ago and had hidden it there for safekeeping. Needless to say, Jack appreciated receiving this reminder of the past.

Sixteen friends gathered at the Jim Hervey home last Thursday to help Linda Lee celebrate her tenth birthday.

## Tickets on Sale For Governor-General Luncheon

Tickets are on sale at the Town Office for the luncheon to be held in honor of His Excellency, the Governor-General of Canada, on Wednesday, October 8th. These tickets are being sold "first-come-first-serve" and as the number is limited those planning to attend are advised to get theirs without delay.

In recent weeks the Sugar City has been getting some adverse publicity it does not deserve. This comes about by transient workers who get themselves involved with the law giving Raymond as their address. Although there are a few local people who once in a while get their names in that department of the daily paper it should be remembered that everytime Raymond is given as the address of a convicted person it does not mean that a citizen of Raymond has run afoul of law and order.

At the meeting of the Raymond Y. B. A. held recently, the following officers were elected:

President, Noboru Sugimoto; Vice President, Mac Nishiyama; Treasurer, Atsuko Takaguchi; Recording Sec'y, Toshiko Hozaki; Correspondent Sec'y, Reyko Karaki; Religious Convenors, Dairo Matsugi and Jim Kawasaki; Social Convenors, Tad Kawasaki and May Nishiyama; Sports Convenors, Roy Kitagawa and Ayako; Editor, Hisashi Matsuno; Assistant Editor, Lillian Hayashi; Farm Forum Chairman, Sakae Saruwatari.

Mrs. Allison and two children of Lethbridge spent the day visiting Mrs. Gerald Watson on Monday.

### BROKEN KERNELS

Farmers are advised to watch the operation of their combines carefully so that there will not be too great a breakage in wheat kernels. Substantial losses may be incurred if the breakage is heavy.

The following is a percentage of broken kernels permitted in spring wheat after the dockage is removed.

One northern about 3 per cent, two northern about 5 per cent, three and four northern about 8 per cent.

Wheat containing 12 per cent or more broken kernels must be sold on sample.

The spread in the initial price between one and two northern is 3 cents, between three and four northern 8 cents. From these figures it will be seen that farmers may incur severe loss if there is a large percentage of broken kernels in the wheat.

## Hey Mom! What's for DESSERT?

Is there something unhealthy about a child's craving for sweets? Mothers see it expressed in an overwhelming interest in dessert, in a constant plea for candy. Teachers are long familiar with recess "snacks"; with the candy sack tucked furtively in the desk. Overindulgence in all things is, of course, harmful. But the child's craving for sweets is a natural hunger for nature's quickest source of energy. Sugar goes into the blood stream faster, is burned

more directly, provides a quicker energy "lift" than any other common food. The wise use of sugar at meal-time serves to make drab foods appealing, makes it possible to give a child interest in nutritional dishes that might otherwise be left on the plate. Within judicial limits then, sugar should be a planned part of every child's diet—should be used to maintain adequate growing energy. And when you look for the Maple Leaf on the bag of sugar you buy—such energy is All-Canadian Energy!

What You Should Know About  
**Rural Electrification  
in Alberta**

**Q. How much would it cost to electrify all the farms in Alberta?**

**A. It is estimated it would cost possibly 200 million dollars, or more than twice the present total provincial debt.**

**Q. Who would actually pay for so-called "FREE" electrification of the farms?**

**A. Everybody would have to pay. The government would have to borrow the hundreds of millions of dollars required; and repay it plus interest by increasing everybody's tax bill — including yours.**

**Q. Who pays the cost of farm electrification today?**

**A. Only the farmers who want electricity. They pay for it only when they get it.**

**Q. Are Alberta farmers getting rural electrification today as cheaply as possible?**

**A. Yes, they are getting it at cost.**

**Q. Are Alberta farmers getting rural electrification today as quickly as possible?**

**A. Yes. Rural electrification is going ahead in Alberta at a rapid pace — as fast as man-power and materials will permit. For instance, the Power Companies in Alberta purchased every pole which was available from all suppliers everywhere last year for farm electrification.**

This year, every pound of wire to which Alberta was entitled, by allotment from the Steel Controller for farm electrification, has been purchased.

Under the Rural Electrification Co-Operative Association plan, operating in Alberta today, the farmers are **HELPING THEMSELVES** to Farm Electrification — by the thousands each year. By helping themselves they are doing it at lower cost than could be done in any other way — and doing it without raising **THEIR OWN TAXES OR YOURS EITHER.**
